

MN Alliance for Ethical Healthcare
Ensuring real care throughout life's journey

Who We Are

We are a diverse coalition of doctors, nurses, advocates for persons with disabilities, medical ethicists, elder-care workers, attorneys, faith-based organizations, and other members of the Minnesota community.

Though our backgrounds are diverse, we come together with a shared commitment: opposition to the legalization of assisted suicide because it is a threat to vulnerable populations in our state. Instead, we support the promotion of ethical healthcare in Minnesota, working for its availability to all people and at all stages of life. We aim to accomplish our goals through legislative advocacy and by raising public awareness.

Join Us!

By joining the **MN Alliance for Ethical Healthcare**, you are taking a public stand against the legalization of assisted suicide in Minnesota. Alliance members will be listed on our official website and in Alliance publications. Once signing up, you will be contacted with further opportunities to support the Alliance, and are free to determine your degree of involvement.

- Please add my organization as an official member of the MN Alliance for Ethical Healthcare
(*I am authorized to speak for my organization*)
